# TREE SEEDS

## PRELIMINARY SEED LIST OF DECIDUOUS TREES AND EVERGREENS

The prices in this preliminary list subject to change without notice  
should crop conditions change before the seed crop matures.  
We expect to mail our regular Tree Seed List in November.

We have recently completed arrangements with one of the largest tree seed houses in Europe to act as their sole representative in the United States and Canada. We refer to the firm of A. Grunwald. We are therefore better equipped than ever before to offer reliable Tree Seeds in large variety and in quantity at favorable prices.

All transactions are to be made directly with this Company.

We should be glad to make special quotations on seeds in larger quantities or extensive lists. We are also calling attention to the fact that this preliminary list includes only a few special items of our complete stocks, and we shall be glad to quote on other kinds not here listed.
